Thank you, doctors.
Dear Friends:

A great doctor can often make all the difference in the world.

When our patients undergo medical treatment or surgery, the passion, compassion, skills and tireless devotion of their physician can profoundly affect their experience in a decidedly positive way.

The tributes in this book are in response to a recent mailing by the Oakwood Healthcare Foundation in conjunction with National Doctors Day (March 30). These tributes remind us all that our physicians are truly Everyday Heroes whose skills and sacrifices have helped make the lives of our patients better and our community a healthier place to live.

Many of the acknowledgements in this book were accompanied by monetary gifts to the Oakwood Healthcare Foundation. These gifts will be used to help provide vital healthcare services to families in our region. If you would also like to make a charitable donation to the foundation, please contact us to discuss the philanthropic opportunities, many of which exist right at your site.

Your leadership and commitment to excellence inspire us every day. We look forward to continuing to partner with you as we transform Beaumont Health into a world-class healthcare destination.

Sincerely,

CARLA O’MALLEY
Executive Director & President,
Oakwood Healthcare Foundation
Vice President, Operations & Specialty Programs,
Beaumont Health

“One generation plants the trees... another gets the shade.”
-- Chinese Proverb

Consider Giving Tomorrows to Oakwood and plant the seeds of your legacy today.

As a physician, you know first-hand the challenges that our patients face. You know that advanced technology, education for nurses and clinical staff, medical research and modern facilities can provide even greater quality of care throughout the region.

You also know that in today’s environment, funding for these important investments is scarce.

Whether it’s a new facility, housing state-of-the-art technology that will provide more advanced treatment for our patients, or a wig for a woman undergoing chemotherapy, philanthropic support from the community can and does make a tremendous impact on how we deliver care.

We invite you to consider making an extended commitment to our patients and our communities by including Oakwood in your will or estate plan. In doing so, you can help us transform healthcare and create a legacy that will benefit Oakwood patients and communities for years to come.

For more information about creating your own personal legacy or about making a charitable gift to benefit patient care today, please contact the Oakwood Foundation at 313.586.5234.

Did you know?
If you are an Oakwood employed physician, you can create your legacy by designating Oakwood Foundation as a beneficiary of a portion of your Oakwood sponsored life insurance policy. Call the Oakwood Foundation today for more information.
Rima A. Abbas, MD

Dr. Abbas made us feel as if she was our personal doctor. She calls to check on us when she treats us or sends us to a specialist.
